

Monthly Family Projects

Dear Kindergarten Family,

Each month the Kindergarten Team will provide an optional Family Project as another way to create a school and home learning connection.

We would like to encourage all family members to participate in the monthly activity. Directions for each project will be included on your child's teacher's website. Please begin collecting pictures of your child throughout his/her Kindergarten year. (These will be needed for later in the year)

Your child will be invited to share his/her family project each month with his/her classmates. Sharing Monthly Projects provides an opportunity for Kindergarten children to be active participants in speaking, listening and questioning behaviors. These fundamental skills will become very valuable as your child journeys through his/her education. Completed family projects should be returned with the response sheet by the due date and will always be posted in the classroom or in the hallway. Displaying each child's work will help develop a sense of pride and ownership.

We hope you will participate and cherish the time you spend together doing these projects with your Kindergartener.

The Kindergarten Team
